

Surgical Expertise You Can Trust

Jason S. Burgess, MD, RVT, FACS

Dr. Burgess is board certified in Vascular Surgery. He has special expertise in both open and endovascular surgery (minimally invasive vascular surgery) to treat all arterial and venous diseases, including varicose veins and venous reflux. He is a Registered Vascular Technologist, specializing in the noninvasive diagnostic workup of patients with ultrasound technology. Dr. Burgess serves as the Medical Director of the ICAVL-accredited vascular lab at Surgical Specialists of Charlotte. Additionally, he specializes in vein care and the minimally invasive treatment of venous disease at the Vein Care Center of Surgical Specialists of Charlotte.

Kathryn L. Davis, MD, RPVI, FACS

Dr. Davis is certified by the American Board of Surgery in both General and Vascular Surgery. Her practice is devoted to vascular surgery and encompasses both open and endovascular surgical approaches for treating peripheral arterial disease, aneurysm repair and the creation and maintenance of dialysis access. She is a Fellow of the American College of Surgeons and credentialed Registered Physician in Vascular Interpretation.

Thomas B. McElwee, MD, FACS

Dr. McElwee is board certified with the American Board of Surgery and is a Fellow of the American College of Surgeons. He provides a full range of general surgical care and performs laparoscopic procedures when appropriate. He performs surgery for breast cancer and benign breast disease; hernia repair; gallbladder and biliary disease, including the pancreas; small intestine disease; colon cancer and diverticular disease; anorectal disorders, including hemorrhoid disease; and skin cancer and skin lesions. He also performs varicose vein surgery and ultrasound-directed closure of varicose veins.

Paul J. Orland, MD, FACS

Dr. Orland is fellowship trained and board certified with the American Board of Surgery in Vascular and General Surgery. He is a member of the Alpha Omega Alpha Honor Medical Society. He has a special interest and expertise in the management of vascular disease, both arterial and venous disorders. He provides the full range of surgical care, including diagnosis and treatment in varicose veins and venous insufficiency, peripheral arterial disease, abdominal aortic aneurysms, and carotid artery disease; dialysis access; and diagnostic evaluation with ultrasound technology.
